# Current Information Products and Resources for Using Them

- Paper Maps
- Digital Resources are Used in the Office
- Specialized Printer/Plotters
- Digital Cameras + GPS imported into Google Earth
- SAT Phones – few have text or data
- Shake Maps don't necessarily match damage

# Challenges and Solutions to Computer or Network Based

- Low Network Bandwidth
- BGAN terminals
  - Affordable
  - Low Bandwidth
  - Enable Wireless Devices
- DPM over Twitter
- Mobile Devices – Low Bandwidth Mobile Web Interfaces

# Challenges and Solutions to Computer or Network Based

- Mobile Interfaces to get out damage information and allow updates
- Using GEORSS to tag response information

# How to Employ Continuous Improvement

- Percentage Change
- Highlight Changes
- Mobile Apps update continuously
- Information products on web site should have a “timeline slider”
